

The World Wildlife-Heritage Museum

WORLD WILDLIFE

Habitats and Horizons

Our World Wildlife collection takes visitors on a journey across all seven continents, exploring the remarkable diversity of animals that inhabit some of Earth's most distinctive and challenging environments.

From deserts, forests, grasslands, and mountain ranges to rivers, wetlands, coastlines, and oceans, the exhibit features both land and aquatic species that illustrate the diversity of life on our planet.

Explore...

- Lion behavior, social structures, and the role of apex predators in African ecosystems
- The Great Wildebeest Migration and one of the largest wildlife movements on Earth
- Bird Hall, our ornithology exhibit showcasing feathered specimens from around the world
- Marine life from oceans and coastal environments around the globe

The World Wildlife-Heritage Museum

WORLD WILDLIFE

Topics and Themes

- Biodiversity and the variety of life
- Adaptation and survival
- The food chain and predator-prey relationships
- Interdependence within natural systems
- Aquatic and terrestrial ecosystems
- Human impacts on the natural world
- Patterns and processes in nature

Help Us Support Your Learning Goals

Every classroom is different. Tell us about your lesson plans, instructional objectives, and areas of focus, and we will work with you to highlight the exhibits, themes, and activities that best support your students' learning.
